MINING STOCK EXCHANGE. the Fairview, and that means better than Week Has Been One of Shrinking Prices and Slower Trading.

The usual Saturday quiet in unlisted stocks prevailed yesterday. The most surprising performance of any in this class has been the action of East Tintic Gold King. First of the week the management, which makes no claim to having a mine, merely a fine prospect, decided to issue a little treasury stock at 1c order to get work started. The block apportioned was quickly snapped, and the next sales were at 1½c and 1½c. That was the price until yesterday, when the stock brought 2½. American Mining & Reduction sold at 4c, Bingham Standard Copper at 14½c, Cedar at 8c and West Quincy at 7c.

Mr. Kessler states that there are a number of splendid properties out there statement in reply to the criticism of a portion of one of his firm's market letters that dealt with Tintic Smelting, and which came from Provo Friday:

"Relative to the article of the Provo correspondent of The Herald, in which it is alleged that Jesse Knight takes exception to a certain paragraph regarding the Tintic smelter that appear in a market letter issued last week by my house, I wish to say that the market letter is not a public pamphlet, but a private paper is sued solely to, and for the benefit and guidance of, the clients of the firm of James A. "I have no desire to enter into an open controversy with Mr. Knight as to the merits or demerits of the Tintic smelter. I had expressed my views in what I consider a strictly private way, and Mr. Knight has expressed his views in a public way, according to the correspondent
